**DIGITAL DEFENSE TO PARTICIPATE IN THE ABA INFORMATION SECURITY FORUM**

**San Antonio, TX – April 30, 2007** – Digital Defense, Inc., a threat assessment and risk management service provider, today announced it would exhibit its Frontline™ Managed Service offerings at the ABA Information Security Forum. The event, hosted by the American Bankers Association (ABA), will take place at the FireSky Resort & Spa in Scottsdale, AZ.

“Digital Defense is pleased to participate in this event which focuses on arming bankers and security professionals of financial institutions with the knowledge and tools they need to address the challenges associated with not only current compliance issues, but the threats prevalent in today’s financial marketplace,” stated Larry R. Hurtado, president and CEO of Digital Defense. “This focus aligns with our commitment to the banking community. Through our broad array of services, we help financial institutions secure their networks and manage the risks associated with their use of information systems in their business operations. We are happy to nurture our association with the ABA and appreciate the opportunity this venue provides for us to work with banks and stay abreast of their current and future needs for solutions that help them to protect their information assets.”

The ABA is the sponsor for this timely event, which concentrates on the latest security threats and the techniques and tools bankers need to protect their financial institutions as well as help customers protect themselves.

**About Digital Defense**

Digital Defense, Inc., a privately held firm based in San Antonio, Texas, delivers a comprehensive portfolio of risk management services including information security programs, regulatory compliance solutions, security testing of IT products and security education offerings to financial institutions and enterprises that utilize Internet Protocol-based technology in their business operations. Digital Defense and its Security Operations team uses proprietary technology and industry best practices to deliver a broad array of services to its clients, which range from small financial institutions to global Fortune enterprises. Frontline™, Digital Defense’s flagship service portal, provides clients with instant access to a security information management platform that enables independent oversight of their organization’s security posture on an autonomous

or Digital Defense managed service basis. For more information about Digital Defense, please visit our web site at [www.digitaldefense.net](http://www.digitaldefense.net) or contact us at 888.273.1412.
