DIGITAL DEFENSE ANNOUNCES HEADQUARTERS RELOCATION

San Antonio, TX – May 12, 2008 – [Digital Defense, Inc.](#) (DDI), a provider of information security assessment services and Software as a Service (SaaS) security compliance solutions, today announced that the company has relocated their headquarters to a new facility. DDI had been in the previous location since their incorporation in January 2000. During the course of 2007, DDI more than doubled their staff, necessitating the move to a new location.

“It is exciting to see the rapid growth of technology companies and the numbers of the associated talented people they attract to San Antonio,” explained John G. Clamp, Councilman for District 10 in San Antonio, in whose district DDI’s new headquarters are located. “The city has made a concerted effort to embrace and support local technology companies and San Antonio is quickly building a well-deserved reputation as a leading technologically-rich city. High tech companies headquartered in San Antonio realize the quality of life and advantageous cost of living make conducting business from a San Antonio base an excellent business decision.”

“We believe that our growth is a clear validation by the marketplace and a testament to our commitment to service and support,” stated Larry R. Hurtado, president and CEO of Digital Defense. “We are proud of the work we have accomplished and this expanded new facility will provide us with the infrastructure to continue with this positive momentum. We will maintain our passion and enthusiasm for assisting our clients with threats to their network security and regulatory compliance challenges in order to build a strong information security foundation. I am pleased to have this opportunity to benefit our employees with an improved work environment in which to continue to serve and support our clients.”

DDI features a best-in-class service portal called Frontline™ Security Compliance, which provides instant access to their automated security assessment services as well as the results of their analyst-assisted services. Their portfolio of on-demand security assessment solutions delivers timely, targeted information on the latest security threats, backed by a team of certified security analysts and researchers. This coupling of technology and talent empowers clients to eliminate the security holes in their network and corporate environment before they negatively affect their business.

About Digital Defense

Digital Defense, Inc., an approved scanning vendor by the Payment Card Industry (PCI) Security Standards Council (SSC), delivers a comprehensive portfolio of risk management services including information security programs, regulatory compliance solutions, security testing of IT products and security education offerings. Digital Defense and its Security Operations team uses proprietary Software as a Service (SaaS) technology and industry best practices to deliver a broad array of services to clients, which range from small financial institutions to global Fortune enterprises. Frontline™, Digital Defense's flagship service portal, provides clients with instant access to a security information management platform that enables independent oversight of their organization's security posture on an autonomous or Digital Defense managed service basis.
