TRUMARK FINANCIAL CREDIT UNION RECOGNIZED FOR EXCELLENCE IN NETWORK SECURITY BY DIGITAL DEFENSE

San Antonio, TX – June 30, 2008 – [Digital Defense, Inc.](#) (DDI), a leading provider of information security assessment services and Software as a Service (SaaS) security compliance solutions, today announced they had presented TruMark Financial Credit Union with awards for the Most Improved Network Security Program and Excellence in Network Security.

Matt Roedell, Vice President of Infrastructure and Information Security at TruMark Financial accepted a trophy and a plaque from [Mark Bell](#), Vice President of Operations at DDI, at their headquarters in Trevoze, Pennsylvania commemorating his organization's success. "Recognition of this nature is important to us for many reasons such as: 1) it provides our credit union with valuable feedback on the effectiveness of our organization's information security program, and 2) it demonstrates our commitment to protecting the information assets of our members and our employees which is obviously very important to our team," stated Mr. Roedell. "We appreciate DDI recognizing us in this manner. DDI's services along with [Frontline](#), their security information and assessment management platform, have proven extremely useful in helping us achieve our information security program goals and objectives. Utilizing one secure Web portal to run automated [vulnerability scans](#), manage scan results and [penetration test](#) findings utilizing a common workflow management engine, and track our remediation progress via the same secure Web portal is extremely valuable to our information security team. It helps us increase the security of our network while at the same time reduce the operating expenses associated with maintaining our network security over time."

DDI selects one client each year to receive the trophy and those that reach a particular milestone can also earn the Excellence in Network Security plaque. The winners of both awards are determined by measuring each client's network security program against specific key criteria. "TruMark Financial made great strides in improving their network security program and we feel it is important to recognize and reward that effort," explained Mr. Bell. "TruMark Financial provides proof that not only implementing but using the right tools on an ongoing basis will provide success in reaching the goals of network security and regulatory compliance."

Matt Roedell accepted the award from DDI with members of the TruMark Financial Board of Directors and Supervisory Committee in attendance.

About TruMark Financial Credit Union

Since its founding in 1939 by a handful of Bell Telephone Company of Pennsylvania employees, TruMark Financial Credit Union has grown to be a leader in the credit union industry. TruMark Financial provides savings, transaction, and credit services solely for its members. In 2005, the credit union's field of membership changed to include anyone who lives, works, worships, volunteers, or attends school in the Southeastern Pennsylvania counties of Bucks, Chester, Delaware, Montgomery, and Philadelphia. TruMark Financial's core purpose is to help members reach their financial well-being and their goal is to be the first place members turn for all their financial needs. For more information about TruMark Financial, please visit our web site at <https://www.trumarkonline.org/home/home> or contact us at 1-877-TRUMARK.

About Digital Defense

Digital Defense, Inc., an approved scanning vendor by the Payment Card Industry (PCI) Security Standards Council (SSC), delivers a comprehensive portfolio of risk management services including information security programs, regulatory compliance solutions, security testing of IT products and security education offerings. Digital Defense and its Security Operations team uses proprietary Software as a Service (SaaS) technology and industry best practices to deliver a broad array of services to clients, which range from small financial institutions to global Fortune enterprises. Frontline™, Digital Defense's flagship service portal, provides clients with instant access to a security information management platform that enables independent oversight of their organization's security posture on an autonomous or Digital Defense managed service basis. For more information about Digital Defense, please visit our web site at www.digitaldefense.net or contact us at 888.273.1412.
