

PCI 1.2 – Experts Answer Your Questions

MOUNTAIN VIEW, Calif. – January 9, 2009 – The Information and Communications Technologies practice at *Frost & Sullivan* is pleased to announce its 2009 Quarterly Analyst Briefing Presentation on the North American network security market to be held on Thursday, January 29, 2009 at 12:00 a.m. PST.

As a result of the evolution of the Payment Card Industry Data Security Standards (PCI DSS), compliance issues are becoming more challenging in relation to network security for organizations of all sizes. Join *Frost & Sullivan's* Network Security Global Program Director, Rob Ayoub, and Digital Defense's (DDI) Compliance Services Supervisor, Alan Chin, as they discuss the latest PCI DSS 1.2 release as well as the PCI DSS standards and their implementation. This presentation will benefit organizations that are active in the network security marketplace, are required to meet PCI DSS because they process, store or transmit payment card data, advise clients on PCI DSS issues, or create PCI DSS fulfillment products.

"The PCI DSS continue to challenge organizations that must comply with the altering standards. Because there are negative ramifications to non-compliance, it is critical to understand the Standards requirements," states Ayoub. "DDI's knowledge, expertise, and strong compliance services background assists those organizations that must first achieve and then maintain PCI DSS 1.2 compliance."

To participate, please email Stephanie Ochoa, Corporate Communications, at stephanie.ochoa@frost.com with the following information: your full name, title, company name, company telephone number, company e-mail address, city, state, and country. Upon receipt of the above information, a registration link will be emailed to you. You may also register to receive a recorded version of the briefing at anytime by submitting the aforementioned contact details.

Digital Defense, Inc. (DDI), an approved scanning vendor by the Payment Card Industry (PCI) Security Standards Council (SSC), delivers a comprehensive portfolio of risk management services including information security programs, regulatory compliance solutions, security testing of IT products and security education offerings. DDI and its Security Operations team uses proprietary Software as a Service (SaaS) technology and industry best practices to deliver a broad array of services to clients, which range from small financial institutions to global Fortune enterprises. Frontline™, DDI's flagship service portal, provides clients with instant access to a SIAM platform that enables independent oversight of their organization's security posture on an autonomous or DDI-managed service basis. For more information about Digital Defense, please visit our web site at www.ddifrontline.com or contact us at 888.273.1412.

Frost & Sullivan, the Growth Partnership Company, partners with clients to accelerate their growth.
