CA CHOOSES DIGITAL DEFENSE TO DELIVER VULNERABILITY MANAGEMENT SOLUTIONS FROM THE CLOUD

San Antonio, TX – April 26, 2010 – [Digital Defense, Inc.](#) (DDI), a leading provider of information security governance, risk management, and compliance (GRC) solutions, today announced that CA has continued its contract for DDI’s most popular cloud-based service offerings. Included within these offerings are DDI’s [managed vulnerability scanning](#) and [penetration testing](#), standards-based vulnerability remediation management, and enterprise-wide security compliance reporting.

“As a longtime DDI client, we continue to realize the operational efficiencies gained from the use of DDI’s cloud-based vulnerability management solutions,” said Bill Taub, vice president, Global IT Security, CA, Inc. “The relationship with DDI is beneficial to both parties. When we see functionality we believe would be a good addition to the solution, DDI listens and delivers. The global reach of DDI’s services, enabled through the use of its [Frontline Solutions Platform \(FSP\)](#), provides us with comprehensive visibility into the status of our IT environment from a vulnerability standpoint.”

In addition, CA SiteMinder integration with DDI’s FSP provides additional levels of technology automation and simplified business operations.

“We are pleased with our strong and enduring relationship with CA. Our solutions help manage cyber risk more effectively and are delivered in a manner that enables customers to maintain focus on growing their own businesses,” stated [Larry R. Hurtado](#), president and CEO of Digital Defense. “Affordability was designed into our solutions so that organizations can deploy them on a recurring, enterprise-wide basis, which in turn provides more comprehensive risk management of IT environments.”

About Digital Defense

Digital Defense, Inc. (DDI) is a leading provider of cloud-based security governance, risk management, and compliance (GRC) solutions. The company provides managed and client-directed security GRC services directly and through its business partners to organizations of all sizes and industry type. DDI clients enjoy greater visibility and management insight of their enterprise-wide GRC programs using DDI’s proprietary Software as a Service (SaaS) delivery platforms and assessment tools.
