DIGITAL DEFENSE TO PARTICIPATE IN THE CUES EXECUTIVE TECHNOLOGY FORUM 2006

San Antonio, TX – April 24, 2006 – Digital Defense, Inc., a provider of network security compliance and risk management services, today announced they are exhibiting at the CUES Executive Technology Forum 2006. The conference will take place in Phoenix, AZ at the Pointe South Mountain Resort May 9 – 11 and is hosted by the Credit Union Executives Society (CUES®).

“Digital Defense is pleased to be a part of this leading-edge event that will offer technology executives in the credit union marketplace the opportunity to engage in high tech discussions with industry leaders and learn more about the latest technology and business trends.” stated Joseph A. Cooper, CEO of Digital Defense. “We are committed to providing credit unions with the services that they need to secure their networks and efficiently manage the business risk and security compliance challenges that they face on an ongoing basis. We continue to receive extremely favorable feedback from our clients on the effectiveness of Frontline™, our security information management portal that we use to deliver our on-demand host discoveries and vulnerability assessments as well as the results of our penetration testing services for comprehensive workflow management through ActiveView™. This event will help us to further inform credit union executives of current threats to their organizations and the solutions that are available to them to reduce the potential of compromise.”

The annual CUES Executive Technology Forum draws a tech-savvy audience searching for the latest, most innovative offerings.

About the Credit Union Executives Society

The Credit Union Executives Society (CUES®) is a Madison, Wisconsin-based, independent, not-for-profit membership association for credit union executives. CUES’ mission is to advance the professional development of credit union CEO’s, senior management and directors.

About Digital Defense

Founded in 2000, Digital Defense, Inc. provides affordable security solutions that allow executives and IT personnel to assess their network security condition, manage their IT risk, and validate deployed infrastructure. Frontline™, a web portal supporting a

comprehensive suite of security applications, provides access to a superior security information management platform with a trusted and independent team of security analysts who provide continually updated market-specific vulnerability analysis. The Digital Defense team is comprised of recognized security experts who focus on specific markets, through which they garner a better understanding of client needs in an environment of increasingly complex security threats. Based in San Antonio, Texas, Digital Defense has over 400 clients nationwide.
