**DIGITAL DEFENSE TO PARTICIPATE IN MEMBERS UNITED'S OPS OUTLOOK CONFERENCE**

**San Antonio, TX – September 25, 2006** – Digital Defense, Inc., a provider of network security compliance and risk management services, today announced they are exhibiting and presenting at the Ops Outlook Conference hosted by Members United Corporate Federal Credit Union. The event will take place at the Albany Marriott in Albany, NY on October 17 -18th, 2006. Defense will present on issues related to System Security, including Social Engineering.

“First of all, we thank Members United Corporate Federal Credit Union for letting us participate in this very important fall event,” stated Larry R. Hurtado, President and CEO of Digital Defense. “We can think of no better opportunity than to spend time with clients and other conference attendees especially when the conference theme is **Exploring the Dynamic World of Operations**. With the words Identify Theft, System Security and ACH Risk emblazoned on the cover of the Ops Outlook Conference Brochure, we believe that we will clearly be at the right place at the right time. Obviously, Members United Corporate Federal Credit Union wants to provide educational opportunities to conference participants on these topics and more. We are so pleased to have the opportunity to share our industry and market insights as well as our security compliance and risk management solutions with clients and other conference attendees to help them better safeguard their credit union operation. Our service offerings, based on industry best practices, provide our clients with clear, consistent high-quality results. These results are well documented in a comprehensive set of reports that are used to help our clients achieve compliance with ever-changing regulatory guidance.”

The Ops Outlook Conference features a multi-track format this year. Digital Defense will be presenting on system security in one of the sessions associated with Track #3.

**About Members United Corporate Federal Credit Union**

Members United Corporate Federal Credit Union, launched in mid-2006, resulted from the merger of two powerful and longstanding corporate credit unions: Empire and Mid-States Corporate FCUs. Members United serves over 2,100 credit unions nationwide and is based in Warrenville, IL.

In order to assist their member credit unions to compete effectively, Members United offers credit-union-focused products and services that are competitively priced. They are

also committed to providing value in forms that are less tangible but vitally important, through information, education, training, and support.

**About Digital Defense**

Founded in 2000, Digital Defense, Inc. provides affordable security solutions that allow executives and IT personnel to assess their network security condition, manage their IT risk, and validate deployed infrastructure. Frontline™, a web portal supporting a comprehensive suite of security applications, provides access to a superior security information management platform with a trusted and independent team of security analysts who provide continually updated market-specific vulnerability analysis. The Digital Defense team is comprised of recognized security experts who focus on specific markets, through which they garner a better understanding of client needs in an environment of increasingly complex security threats. Based in San Antonio, Texas, Digital Defense has over 400 clients nationwide.
