DIGITAL DEFENSE RELEASES NEW VERSION OF EDUCATIONAL SERVICE

San Antonio, TX – April 24, 2006 – Digital Defense, Inc., a provider of network security compliance and risk management services, today announced the newest release of their popular educational offering, Security Training, Education and Awareness Module (TEAM™). Security TEAM is a solution that enables enterprises, and specifically financial institutions, to arm their clients who use online services with the fundamental security education they need to avoid electronic threats, and thus feel comfortable making use of the investment the organization has made in those online services.

“As a Digital Defense client, we are pleased to see the latest enhancements to the TEAM service offering.” said Dave Price, Information Technology Manager at Xerox Federal Credit Union. “Digital Defense continues to demonstrate their commitment to clients through continued investment in the evolution of their products and services. The additional TEAM courseware that is added each quarter provides me with an even greater ability to ensure that we are meeting our regulatory compliance goals through the education of our online banking patrons. We have seen that Digital Defense is focused on providing financial institutions with the tools that they need to secure their networks and efficiently manage the business risk and security compliance challenges associated with today’s environment.”

TEAM currently consists of courseware, associated tests, and completion certificates in the following categories: Online Fraud, Passwords, Viruses/Worms, Trojans & Spyware, Home Firewalls, Securing Home Computers, and Secure Transactions Away from Home. There is a special section related to ID Theft topics as well. Furthermore, the Security TEAM solution provides organizations with statistics on customer usage of the training offering. Digital Defense enhances the TEAM service with additional courses each quarter.

About Xerox Federal Credit Union

Headquartered in El Segundo, CA, Xerox Federal Credit Union (XFCU) is a full-service financial institution that has served members nationwide since 1964. In 2000 XCU Capital, a subsidiary of XFCU, was named the financial services CUSO of the year by the National Association of Credit Union Service Organizations (NACUSO).

About Digital Defense

Founded in 2000, Digital Defense, Inc. provides affordable security solutions that allow executives and IT personnel to assess their network security condition, manage their IT risk, and validate deployed infrastructure. Frontline™, its subscription-based vulnerability management service, combines a superior security information management platform with a trusted and independent team of security analysts who provide continually updated market-specific vulnerability analysis. The Digital Defense team is comprised of recognized security experts who focus on specific markets, through which they garner a better understanding of client needs in an environment of increasingly complex security threats. Based in San Antonio, Texas, Digital Defense has over 400 clients nationwide.
