DIGITAL DEFENSE OFFERS NEW RELEASE OF EDUCATIONAL SERVICE

San Antonio, TX – October 23, 2006 – Digital Defense, Inc., a provider of network security compliance and risk management services, today announced the latest release of their popular educational offering, Security Training, Education and Awareness Module (TEAM™). This release consists of a new topical course, which is entitled Online Shopping Safety. Security TEAM is a solution that enables organizations to equip their clients who use online services with the fundamental security education they need to avoid cyber-threats, and thus feel comfortable making use of the investment the organization has made in their online services. TEAM is available in both English and Spanish translations in order to reach a greater number of online patrons.

“Digital Defense is delighted to deliver this new course as part of the growing TEAM offering.” said Larry R. Hurtado, President and CEO of Digital Defense. “Our clients believe that making educational opportunities on security and identity theft available to their online patrons is very important. We continue to support them in the area of client education through our ongoing investment in the evolution of our Security TEAM platform. The TEAM service includes enhancements each quarter in both English and Spanish. One of Digital Defense’s key strengths is in providing organizations with the tools that they need to secure their networks and efficiently manage the business risk and security compliance challenges associated with today’s environment.”

TEAM currently consists of ten courses, associated tests, and completion certificates on the following topics: Online Fraud, Passwords, Viruses/Worms, Trojans & Spyware, Home Firewalls, Securing Home Computers, Secure Transactions Away from Home, Online Banking Myths and ATM & Debit Card Misuse, in addition to the new course. There is a special section related to ID Theft topics as well. Furthermore, the Security TEAM solution provides organizations with statistics on customer usage of the training offering. Digital Defense enhances the TEAM service with additional courses each quarter.

About Digital Defense

Founded in 2000, Digital Defense, Inc. provides affordable security solutions that allow executives and IT personnel to assess their network security condition, manage their IT risk, and validate deployed infrastructure. Frontline™, a web portal supporting a comprehensive suite of security applications, provides access to a superior security

information management platform with a trusted and independent team of security analysts who provide continually updated market-specific vulnerability analysis. The Digital Defense team is comprised of recognized security experts who focus on specific markets, through which they garner a better understanding of client needs in an environment of increasingly complex security threats. Based in San Antonio, Texas, Digital Defense has over 400 clients nationwide.
